KENTOO

TECHNOLOGY TO ENHANCE PRODUCTIVITY

4-WEEK FACEBOOK & INSTAGRAM CAMPAIGN

"One Call. Everything Covered."

Solar Energy | CCTV Security | ICT Solutions

Prepared for Kentoo | Kapsabet & Eldoret Branches
September 2026

THE BIG IDEA

BUDGET APPROACH

Total media spend: KES 7,200 across 4 weeks (KES 1,600/week — about KES 228/day). At this scale, this is best run as a single Boosted Post per week rather than a full Ads Manager campaign with multiple settings — boosting is simpler to manage and puts the whole budget behind one piece of content. Keep the audience very tight (Kapsabet and Eldoret towns themselves, not the wider counties) so the limited budget isn't spread thin. Treat this month as a test: the goal is to see which of the three products gets the most engagement per shilling, so that budget can be scaled up on the strongest performer next month.

4-WEEK PRODUCT ROTATION

Week 1 — Solar Energy: "Beat the Blackout"

- ✓ Focus: solar panels, Lithium batteries and hybrid inverters.
- ✓ Hook: frequent KPLC outages hitting homes, shops and farms.
- ✓ Creative: one video or carousel, real product shots from the poster.
- ✓ Meta objective: Post Engagement (boosted post). CTA: "Send Message".
- ✓ Budget: KES 1,600.

Week 2 — CCTV & Security: "Protect What Matters"

- ✓ Focus: CCTV cameras, DVR/NVR systems, access control.
- ✓ Hook: growth of rental estates and shop break-ins in Eldoret/Kitale.
- ✓ Creative: one boosted post, same format as Week 1 for consistency.
- ✓ Meta objective: Post Engagement. CTA: "Send Message".
- ✓ Budget: KES 1,600.

Week 3 — ICT Solutions: "Stay Connected"

- ✓ Focus: Wi-Fi & network installation, routers/switches, structured cabling, IP phones.
- ✓ Hook: schools, SACCOs and offices needing reliable connectivity.
- ✓ Creative: one boosted post, same format as Weeks 1–2.
- ✓ Meta objective: Post Engagement. CTA: "Send Message".

✓ Budget: KES 1,600.

Week 4 — All Three, One Call: "Free Site Assessment"

✓ Focus: recap carousel of all three product lines with the EPRA licence badge.

✓ Audience: retarget everyone who messaged, commented, or engaged in Weeks 1–3 — a free custom audience Meta builds automatically.

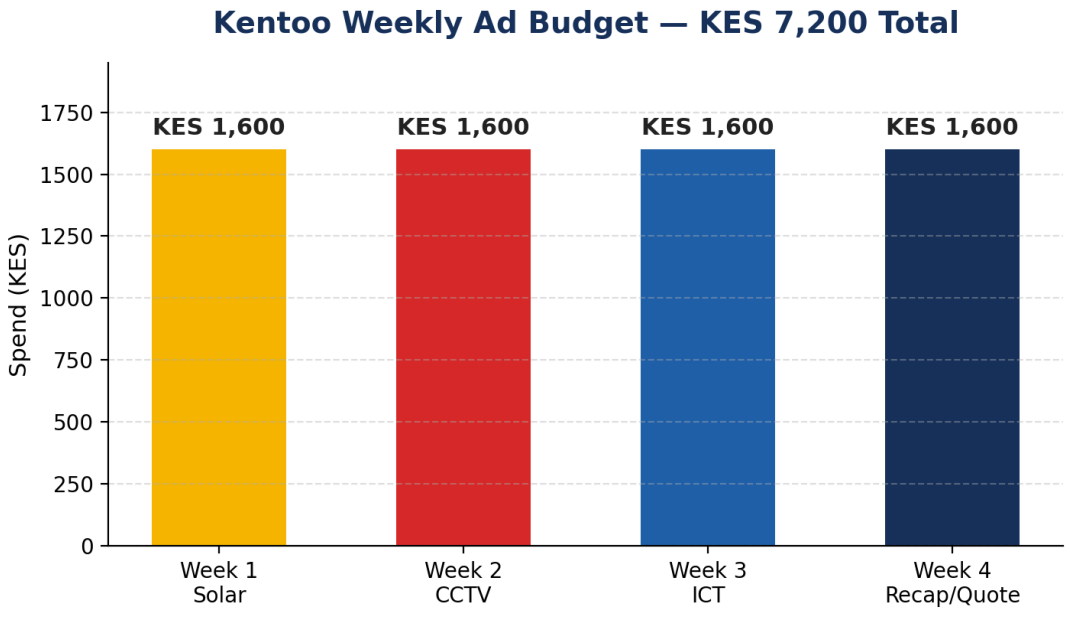

✓ Meta objective: Post Engagement, boosted to the Weeks 1–3 engagers (a free custom audience Meta builds automatically).

✓ CTA: "Get Quote" / "Call Now" / "WhatsApp Us" (0721 816 797 / 0726 598 585).

✓ Budget: KES 1,600.

WEEKLY BUDGET — KES 7,200 TOTAL

Week	Product Focus	Spend (KES)
1	Solar Energy — "Beat the Blackout"	1,600
2	CCTV Security — "Protect What Matters"	1,600
3	ICT Solutions — "Stay Connected"	1,600
4	All Three, One Call — "Free Site Assessment"	1,600
Total		**7,200**

Note: this figure is media spend only. Production (short videos/photos of real installs) and campaign management time are separate line items and should be quoted independently so Kentoo isn't assuming an all-in cost.

KEY OPERATIONAL NOTES

- ✓ At KES 228/day, use the simple “Boost Post” flow rather than building full ad sets in Ads Manager — less overhead, and the entire budget goes behind one clear result.
- ✓ Keep the audience radius small — Kapsabet and Eldoret towns themselves — rather than the wider North Rift counties, so the limited reach isn't spread too thin to register.
- ✓ Treat this month as a low-cost test of which product line gets the best engagement per shilling, then shift more budget to the strongest performer in month two.
- ✓ Track which branch (Kapsabet or Eldoret) each inbound message mentions, so results can be attributed and compared even at this small scale.

NEXT STEPS

- ✓ Approve the KES 7,200 budget and weekly product order.
- ✓ Confirm Facebook Page and Instagram linkage for boosting posts.
- ✓ Prepare one strong post (photo or short video) per product ahead of its week.
- ✓ Launch Week 1 and review results before starting Week 2.
